

WHAT HAPPENS WHEN YOU GAMBLE WITH YOUR COMPANY'S DATA AND DISASTER STRIKES?

Is your company gambling with your data and future? Do you have a *Disaster Recovery Plan*? Traditional backups still leave you with the time-consuming task of restoring data that is often incomplete, as well as needing to recover or replace your company's entire IT infrastructure.

DON'T GAMBLE - Be prepared when IT disasters strike

• Ransomware

• Hackers

• Careless Employees

• Fire / Water Damage

• Aging & Failed Hardware

• Software Corruption

TurnKey Internet is Upstate New York's only Tier IV Datacenter providing 100% guaranteed uptime. TurnKey Internet offers Colocation, IT Infrastructure, New York to California replication, on-premise 24x7 expert local staff, and the cloud solutions to help your business succeed.
